This is called the Home Screen of your iDevice - whether you have an iPad, iPhone or iPod Touch, to get to this screen you just have to press the circle button at the bottom of the device. And to open Grace App you just need to press the pink icon. I keep my Grace App at the bottom of my home screen so it is always visible.

iPads4autism_ie

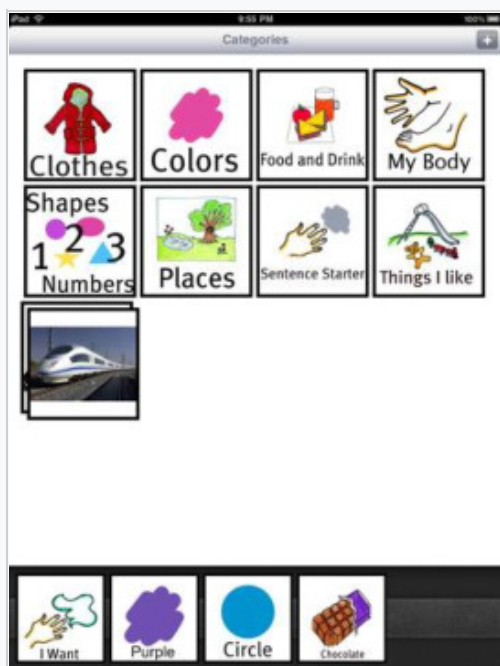

Give up yer aul iPad or iPhone or iPod Touch and get yerself a lovely new one (We'll find a new home for the auld one)

Search for it

powered by

This is what you see when you open Grace App on the two smaller devices. On an iPad it looks like this

Grace App in Abu Dhabi

Grace App Goes Free for World Autism Awareness Day, April 2, 2011

Everybody deserves the right to say what they want. Listen

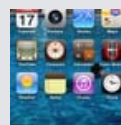

You can see there are Eight categories and one empty one to start with at the bottom right. That is for your custom pictures. When you take, save and add pictures to the App they will live there. In our next update you will be able to put them into each category. But that is where they are for now.

So the categories are Clothes:

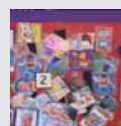

Colours (Colors)

How Grace Works

Things I Like

Grace - Picture Exchange from Steven Troughton-Smith on Vimeo.

Grace on the 6'oclock News

Grace - RTÉ News Six One from Steven Troughton-Smith on Vimeo.

Grace and Mummy on The Morning Show

And you then you have your custom button.

How to Customize Grace App

As you can see on the top right there is a Plus Button. To ADD anything to Grace App, press this:

Grace - TV3 - The Morning Show from Steven Troughton-Smith on Vimeo.

Click on the picture of a little camera - It doesn't have to be perfect, but make sure the only thing in the picture is the item that you need. This is called Stimulus control - when you teach the user what the picture is called, you want to make sure that you are both talking about the same thing.

If you are happy with the picture:

[click here](#) ↑

And the App will squish it into a little square like the others and store it. It takes a few seconds.

[You can get an iPad or iPod with Camera for your school or group. Grace App as a promptable means of developing your child's own voice \(1\)](#)

You can also choose an existing picture that you have saved to the Album of your device - your only choice when you are using the older iPod Touch with no camera, or iPad.

↑ this little

flower button

is where your saved photos live.

To get these you can move them from your computer like I did here

on

["How to add pictures to an Album on iPad"etc](#)

Or you can search for images on the internet using the wireless internet connection on your device.
See the next "How to" chapter for that.

And remember you can ALWAYS email me for help on
graceappforautism@gmail.com

Or phone me on +353 860486249 - but take into account I am in Ireland which is on Greenwich Meantime.
